

# Physical Topology metrics

This section includes some metrics calculated from the physical topology.

Metric	Value
Number of nodes	6
Number of unidirectional links	16
Average node degree	2.667
Average link distance	200.000
Average shortest path number of hops	1.533
Average second shortest path number of hops	2.467

# Logical Topology metrics

This section includes some metrics calculated from the logical topology.

Metric	Value
Number of nodes	6
Number of unidirectional links	30
Average node degree	5.000
Average link distance	306.667
Average shortest path number of hops	1.000
Average second shortest path number of hops	1.000
