

## Logical Topology metrics

This section includes some metrics calculated from the logical topology.

Metric	Value
Number of nodes	6
Number of unidirectional links	16
Average node degree	2.667
Average link distance	500.000
Average shortest path number of hops	1.533
Average second shortest path number of hops	0.000

## Traffic (demands and routing) metrics

This section includes some metrics calculated from traffic demands.

Metric	Value
Total carried Traffic in ODU0	3690.0
Total carried Traffic in Gb/s	4612.5
